Yes

we proudly source some of our own product range from China...

And yes, you can rely on its quality and high performance. We've been dealing with Chinese manufacturers for a great many years now and we understand how they work, who to choose and how to ensure you get the best quality at a fair price.

We travel to China on a frequent basis to check quality standards, to oversee design features and to maintain our solid working relationships. That all pays off in being able to deliver you the right tools at a very competitive price.
